

## Technical Data Sheet

### PRODUCT DESCRIPTION:

Sodium acetate,  $\text{CH}_3\text{COONa}$ , also abbreviated  $\text{NaOAc}$ , is the sodium salt of acetic acid. This colorless deliquescent salt has a wide range of uses.

### APPLICATION:

Buffer solution  
Concrete longevity  
Food industry

### CERTIFICATE OF ANALYSIS:

Item	Results
Name	Sodium acetate (anhydrous)
CAS number	127-09-03
Chemical formula	$\text{C}_2\text{H}_3\text{NaO}_2$
Purity	Not less than 98%
Free alkali	Not more than 0.7%
Loss of drying	Not more than 2.5%
PH of aqueous solution 5%	8.3-9.3
Appearance	White or opalescent deliquescent powder
Density	Approx. 1.5g/cubic centimeter
